Record breakers!

Ahmed, Simon and Yannick have never met, but they all have something in common. Each of the men has done something amazing and has become an official Guinness World Record breaker!

What have they done? Read on and find out.

Since 1955, Guinness World Records has produced an annual book with a list of some of the world's records. It has become one of the top-selling books of all time. Have you ever read it?

The world's highest bungee dunk!

Name: Simon Berry **Nationality:** British
World record location: Maidenhead, England

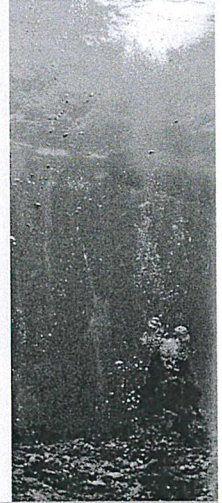

A lot of people have done a bungee jump, but very few people have tried a bungee dunk! A bungee dunk is a bungee jump with a difference. At the end of the jump you have to dunk a biscuit into a mug of tea! Crazy? Well, yes, but don't tell Simon Berry. He's recently become the world champion bungee dunker! On 17th November, 2016, Simon dunked his biscuit into some tea after a jump of 73.4 metres! He broke the previous record and went straight into the record book!

The world's deepest scuba dive!

Name: Ahmed Gabr
Nationality: Egyptian
World record location: The Red Sea, near Egypt

Ahmed Gabr is a record breaker because he has dived to a depth of 332.35 metres! It's the deepest scuba dive ever! Ahmed made the record dive in 2014. The dive down only took about 12 minutes, but it took nearly 15 hours to come up to the surface again! Ahmed started the dive in the morning on 18th September and finished after midnight on the 19th!

a wheelie

The world's longest quad bike wheelie!

Name: Yannick Dupont **Nationality:** French
World record location: Mulhouse, France

Yannick Dupont has had a lot of exciting experiences. He's a French stuntman and he's a record breaker, too! On 6th April, 2015, Yannick broke the record for the longest quad bike wheelie! He travelled 34.29 kilometres on two wheels of a quad bike. That's nearly the distance from Modena to Bologna!

Step into culture

Il libro dei record è nato da un'idea di un industriale britannico, Sir Hugh Beaver, direttore della Guinness, l'azienda di produzione di birra. Ecco perché il libro si chiama *Guinness World Records*, conosciuto in Italia come il *Guinness dei Primati*.
