Leggere e tradurre il seguente brano:

The screenshot shows a news article on the 'News in Levels' website. The header includes a globe icon, the title 'News in Levels', and the subtitle 'World News for Students of English'. Below the header is a navigation menu with buttons for 'HOME', 'LEVEL 1', 'LEVEL 2', 'LEVEL 3', 'DAYS', 'BOOK 1', 'GRAMMAR', and 'BOOK 2'. The article title is 'Dubai floods – level 2'. It features a small image of a flooded street with cars. The text of the article describes a major storm in Dubai that caused significant flooding at the airport, leading to canceled flights and people getting stuck. It also mentions that the rain was unusually heavy for the region and that experts predict more such storms as the world warms. A list of difficult words is provided at the end of the article.

Dubai floods – level 2

23-04-2024 15:00 Level 1 Level 2 Level 3

Dubai International Airport is one of the busiest airports in the world. Last week, a big storm brought **torrential rain** to the United Arab Emirates and flooded the airport.

In one day, there was more rain than in the whole year. The rain damaged many things and even caused one person to die. The streets in Dubai looked like rivers because of all the water. The airport still had problems after the rain stopped. Many planes were on the ground, so there was not enough space. Lots of people got **stuck** at the airport because the airport canceled flights.

Experts say that as the world gets warmer, we might see more big storms like this one, even in places where rain is not usual at all.

Difficult words: **torrential rain** (very heavy rain), **stuck** (not able to move from a place or position).
